NBIC Repair & Alterations

This seminar will be helpful for anyone interested in gaining a better understanding of how to make repairs or alterations in accordance with the National Board Inspection Code (NBIC). It will be especially helpful for those who are taking their first steps into the NBIC world.

Duration: virtual is 3 days, 11am to 3pm ET; in-person is 2 days, 8am to 4pm local time.

ASME Section IX

This seminar will review and discuss how to apply ASME rules for the qualification of welding procedures and welder performance. The information will be helpful for novice ASME users, experienced users wanting to stay abreast of code development, and those needing to meet QG-106 of Section IX.

Duration: virtual is 3 days, 11am to 3pm ET; in-person is 2 days, 8am to 4pm local time.

ASME Section VIII Div. 1 General Overview

This seminar will review and discuss ASME code rules for the full scope of work associated with construction of a pressure vessel. This includes design, material selection, fabrication, inspection, testing, stamping, over-pressure protection, and certification. This seminar is for anyone wanting an overview of all of Section VIII Div. 1 requirements.

Duration: virtual is 4 days, 11am to 3pm ET; in-person is 3 days, 8am to 4pm local time.

Price per attendee for above seminars:	
ASME Section VIII, Div. 1 General Overview	\$850.00
ASME Section IX	\$600.00
NBIC – Repairs & Alterations	\$600.00
Future Seminars – dates to be announced:	
ASME Section VIII, Div. 1 Design	
ASME Section I and B31.1 Power Boilers	
Pressure Equipment Directive (PED)	
All virtual seminars will have additional dates added in each quarter	

As of February 8, 2024
